

SUPER INTELLIGENCE. ON YOUR DESK.

A private AI machine, installed where you work and owned outright. It works with your files, on your network, without sending your work to someone else's cloud.

- 01

DRAFT

Documents, plans, messages, and the work you write every day.
- 02

SEARCH

Private files and internal knowledge you would never upload.
- 03

ANALYZE

Research, records, options, and long material that needs an answer.
- 04

BUILD

Working scripts, small tools, and repeatable workflows around your work.

OWN THE MACHINE.

This is what changes when the intelligence belongs to you.

01

YOUR WORK STAYS WITH YOU.

Files, prompts, and answers stay on the machine. It can run without public internet.

02

ONE MACHINE. EVERYONE.

Use it across your local network. Adding another person costs zero dollars.

03

NO METER.

Use it as much as you want. There is no token bill, usage quota, or per-seat license.

04

BUILT AROUND YOUR WORK.

Change the model, add workflows, and keep improving the machine you already own.
